ANNOUNCEMENTS FOR 1943-1944

BULLETIN *of* HAMPDEN-SYDNEY COLLEGE

Entered at the Post Office at Hampden-Sydney, Va., as second-class matter.

Accepted for mailing at special rate of postage provided for
in Section 1103, Act of October 3, 1917.

Authorized August 27, 1918.

The Navy College Training Program V-12 has placed a unit at Hampden-Sydney College on July first and the College has revised its calendar to conform with that of the Navy Program. The next semester begins on July first and continues for sixteen weeks. This will be followed by sixteen week semesters beginning on November first and March first. The number of recitations per week in the different courses will be made to conform to the requirements of the Navy program. Navy trainees and civilians may be assigned to the same classes.

Hampden-Sydney College

ADMISSION TO COLLEGE

Civilian Candidates for admission may be accepted for entrance at the beginning of any semester as long as the V-12 unit is at Hampden-Sydney. In considering an applicant the administration will give attention to the high school record and to his recommendations. Character and good health are necessary requirements; good scholarship, interest in recreational activities, and leadership in school-life are of considerable importance.

Candidates should make application by letter. A formal application blank will be furnished by the college. When this is filled out and submitted to the college, it must be accompanied by the registration fee of \$10.00 which will be applied to college fees upon enrollment. The college will appraise the data submitted and notify the applicant promptly of acceptance or rejection. In case of rejection the registration fee will be returned.

All civilian students room in Venable Hall. As far as practical, Freshmen are assigned to one floor and are supervised by student councilors, carefully chosen for the purpose because of their qualifications. Civilian students board at one of the three boarding houses adjoining the campus.

Upon arrival a student should ascertain his room assignment at the college offices. As soon thereafter as practical he should consult with his class adviser who will make out his course of studies for the year and give him a card which entitles him to matriculate. This card is then presented to the Treasurer, who countersigns it upon payment of the semester fees. The student then carries this card to his classes and after it has been initialed by his professors he returns it to his class adviser.

Due to the acceleration of the work under the present system, attendance at the beginning of the course is imperative. Also no unwarranted absences from classes are permitted. The only excuses accepted are those of the college physician for sickness or of the dean in extraordinary circumstances, which must be explained to the dean in advance.

ENTRANCE BY CERTIFICATE

For admission to the Freshman Class satisfactory completion of not less than sixteen units in a high school or private academy is necessary and of these sixteen units four should be English; at least one and one half units and preferably two units in Algebra; one unit in Plane Geometry; two units in *one* foreign language; one unit in History or Government; one unit in natural Science. Three additional units must be offered, chosen from Mathematics, Foreign Language, Science and Social Studies and the other two may be from any subjects taught in the school.

ADVANCED STANDING

College credit is not given for work done in secondary schools. Students must enter the lowest college class in all subjects. If, however, a student can satisfy a professor by examination or otherwise that he is qualified to take a higher class, he may do so. By such an examination a degree requirement may be partially satisfied, but the number of hours required for graduation is not diminished.

SPECIAL STUDENTS

Occasionally an applicant for admission has reached the age of maturity without having had the opportunity of securing sixteen entrance units. Provision is made for such applicants, as "Special Students." They must be more than twenty years of age at the date of entrance, must present at least seven entrance units, and must conform to all College regulations. With the advice of the Class Adviser they may enroll in such courses as suit their tastes and their preparation.

TRANSFERRED STUDENTS

Because of the difference in courses and regulations a transference from one college to another almost always involves a loss of credits. For this and other reasons a change of college is to be discouraged. Especially undesirable is it in the middle of a session. However, strictly cultural and scientific courses at accredited institutions will

be recognized tentatively and will be fully credited only when the work in the same department at Hampden-Sydney College is satisfactory and warrants the credit. If the work in the advanced course is not satisfactory, the student will be *required* to repeat the lower course and the transferred credit cancelled. No credit is allowed for the work of a quarter, a semester, or a session taken elsewhere, if the practical equivalent of the work is taken in course at Hampden-Sydney.

No student from another institution who received credit for less than nine hours work for the term next preceding his application will be admitted.

**The difference between these hours and the hours required in the Navy courses will be equalized in the 62 session hours required for a degree.

HOURS REQUIRED

FOR the B.A. or B.S. degree, a candidate must complete, together with the prescribed work, enough elective courses to aggregate sixty-two hours of credit. A minimum of seventy-four hours of credit is required of a student who wishes to take both degrees.

A minimum residence of one year, the year immediately preceding graduation, is required.

If a student fails to graduate with his class, he may receive credit for not more than four hours of work done elsewhere later. During his four years' course he may receive credit for only 15 hours in other summer schools, and a maximum of more than six session hours in any one summer session must be approved by the Dean in advance.

All students of Hampden-Sydney College are required to take courses in Bible their first two years.

All students must take the work of the Physical Education Department, unless excused by college physician.

QUALITATIVE UNITS

IN addition to the sixty-two session hours required for graduation a degree candidate must have a total of 80 qualitative units. (Only 20 of these may be earned in summer schools.)

These units are given on the following basis:

For each grade between 76 and 79, inclusive, 1 unit for each session hour.

For each grade between 80 and 84, inclusive, 2 units for each session hour.

For each grade between 85 and 89, inclusive, 3 units for each session hour.

For each grade between 90 and 94, inclusive, 4 units for each session hour.

For each grade between 95 and 100, inclusive, 5 units for each session hour.

Qualitative units are not given on term grades, nor can they be earned by re-examinations or by a term course in lieu of a re-examination.

LITERARY SOCIETY WORK

ONE hour of elective credit is allowed for two years of work in the Society; two hours for three years.

FOREIGN LANGUAGE COURSES

FIRST-YEAR courses in modern foreign languages are intended for students who have had no previous training in those fields. No credit will be given for a first-year course in a modern language unless it is followed by the second-year course in the same language. No credit will be allowed in a first-year course in modern language when two units of that language have been offered for college entrance.

Candidates for the B.A. degree may satisfy the degree requirement for courses 1, 2, and 3 in any language, ancient or modern, with the satisfactory completion of the third-year course in that language. The satisfactory completion of the second-year course in any language, ancient or modern, will meet the degree requirement for courses 1 and 2 in that language.

Candidates for the B.S. degree may satisfy the degree requirements for foreign language with the successful completion of any two second-year courses.

Credit hours in language courses will be given only for those language courses taken in college.

PRE-MEDICAL AND PRE-DENTAL COURSE

PRACTICALLY all Medical and Dental colleges are cooperating with the Army or Navy by accepting students who have completed the minimum course outlined by the Navy. The entire pre-medical course requires five sixteen week semesters, and adapted to Hampden-Sydney is as follows:

| | <i>First Term</i> | <i>Second Term</i> |
|----------------------------|-------------------|--|
| Chemistry (Inorganic)..... | 3 lectures | 1 laboratory 2 lectures 2 laboratories |
| Physics (General)..... | 3 lectures | 1 laboratory 3 lectures 1 laboratory |
| Mathematics (Algebra, | | |
| Trig., Analytics)..... | 5 lectures | 5 lectures |
| Modern Foreign Language | 3 lectures | 3 lectures |
| Bible (New Testament)..... | 3 lectures | 3 lectures |

*Third Term**Fourth Term*

| | | | | |
|-------------------------------|------------|----------------|------------|----------------|
| Chemistry (Quantitative)..... | 2 lectures | 2 laboratories | | |
| Chemistry (Organic)..... | | | 2 lectures | 2 laboratories |
| Biology | 2 lectures | 2 laboratories | 2 lectures | 2 laboratories |

| English (Freshman)..... | 3 lectures | | 3 lectures | |
| Bible (Old Testament)..... | 3 lectures | | 3 lectures | |
| Psychology (General)..... | 2 lectures | | 2 lectures | |

Fifth Term

| | | |
|-----------------------------|------------|----------------|
| Biology (Embryology)..... | 3 lectures | 2 laboratories |
| Chemistry (Organic)..... | 2 lectures | 2 laboratories |
| Modern Foreign Language | 3 lectures | |
| Psychology (Abnormal)..... | 3 lectures | |
| History (United States).... | 3 lectures | |

This will give a total of 47 session hours. If a student wishes to graduate from Hampden-Sydney it will be necessary for him to continue for two more semesters. The above course is very heavy and should not be attempted by any except excellent students who are willing to spend the required time on the subjects. If it is possible to stay in college for the four years, the course should be rearranged and will prove far more satisfactory to the student.

PRE-LAW COURSE

THERE is no pre-law course in the sense of a set of requirements specified by the law schools. These schools require at least thirty session hours of college work, which means not less than two years. Certain college courses furnish a better preparation for the study of law than others, and the Class Advisers or the Dean will guide the prospective law student in choosing the best courses.

However, the best possible preparation for the study of law is the four-year course leading to the B.A. degree, and all students interested in studying law are advised to take this degree.

PRE-ENGINEERING COURSE

THE best of the Northern and Eastern schools of engineering are highly technical and give a student very little opportunity to study such cultural courses as are offered at Hampden-Sydney. For this

reason, and for the possibly stronger reason that a high school student needs further training to carry successfully the difficult work of the technical school, at least two years at a school like Hampden-Sydney is very desirable.

PRE-SEMINARY COURSE

THE American Association of Theological Schools recommends that men preparing for the ministry take in college courses in the following subjects: English, History, Psychology, Philosophy, Greek, Biology or Physics, Economics, Political Science, Sociology, and Education. Special emphasis should be placed upon the study of English as it is of supreme importance that the minister be able to express himself with clarity, beauty and force. German is also recommended for students who expect to pursue advanced work in theology.

General Rules

DISCIPLINE

The discipline of the college is in the jurisdiction of the President, the Dean, and the Faculty under regulations adopted by the Board of Trustees.

The Administration and the Faculty are willing to cooperate in the idea of "Student Government" in as far as the student body is willing to assume specific responsibility and to prove its willingness and ability to exercise this delegated authority by its own conduct and by its control of individuals.

The Administration or the Faculty may dismiss, without making specific charges, any student whom it deems undesirable. The parent or guardian will first be asked to withdraw the undesirable student. Such dismissal will form a part of the student's record and will be stated on any certificate sent to another institution.

CLASS ATTENDANCE

Under normal circumstances regular attendance at class is necessary but under the accelerated program, as co-related with the V-12 program it is imperative that every class period be utilized. Consequently there is no excuse for absence from classes except on the doctor's excuse or under exceptional circumstances explained to the Dean *in advance*. Every unexcused absence counts as a zero for the class missed. A boy who persists in unexcused absences beyond three for all his courses will be dropped from college and the penalty will be a part of his permanent record.

ROOM AND BOARD

A civilian student shall room in Venable Hall in the room assigned him and he shall be responsible for any damage to his room or the college property therein.

No unauthorized electrical appliances will be permitted and no changes in wiring shall be made except by the college electrician. The misuse of a radio will necessitate confiscation until the end of the term.

Councilors will be selected from among the upperclassmen who will have a position of influence and authority in carrying out the rules and regulations of the dormitory life and will act as advisers to the students.

Civilian students will board at one of the three private boarding houses of the community.

AUTOMOBILES, FIREARMS, DOGS

During the present emergency no student shall have a car. No student is permitted to possess firearms at Hampden-Sydney. No student is allowed to bring or keep a dog at Hampden-Sydney.

RE-EXAMINATIONS

During the present emergency any necessary re-examinations must be taken at the convenience of the instructor during the first fifteen days of the next following term. A re-examination must not interfere in any way with the regular classes or laboratories of the student concerned. The student must obtain permit to take the re-examination from the Treasurer and present it to the instructor at the time of the re-examination.

MINIMUM SCHOLARSHIP REQUIREMENTS

The opportunity for civilians to speed up their education along with the heavy Navy program carries with it an obligation on the part of the civilian to take full advantage of the opportunity. Those who lack the proper preparation are wasting their time and money and will be advised to withdraw. Those who are capable of doing the work and do not carry it to the satisfaction of the Faculty will be dropped from college.

STUDENT HEALTH SERVICE

The health and physical welfare of the students are under the supervision of the College Physician.

There is an adequately equipped infirmary, in charge of a trained nurse, to which students who are too ill to attend classes must go.

The medical and infirmary fee covers the service of the College Physician at the daily sick call, entrance examination, special examinations for Physical Education and athletics, and emergency calls at the Infirmary. This fee likewise includes the services of the College Nurse at the Infirmary.

Students must bear any extra expense such as that of a consulting physician, special examinations other than those covered by the student health service, special nurse and hospital treatment.

LOCATION

Hampden-Sydney College is located seven miles south of Farmville, Virginia, just off U. S. Route 15.

Farmville is on the main line of the Norfolk and Western Railroad and on the Richmond-Knoxville line of the Atlantic Greyhound Corporation.

The post-office is Hampden-Sydney, Virginia. The telegraph, express, and freight offices are at Farmville. The College has long-distance telephone connections through Farmville.

STUDENT ORGANIZATIONS

During the present emergency, while the Navy V-12 unit is at the College, only those student organizations will be maintained for which there is sufficient demand and for which time and opportunity are available.

Expenses

COLLEGE FEES

The Board of Trustees has fixed the college fees as follows:

All college fees (including room) per semester \$175. This does not include board which must be obtained at one of the three private boarding-houses now at the rate of \$35 per calendar month. Payment for board is made direct to the proprietress and not through the college treasurer.

Any student who during the first eight weeks of any term is required to withdraw from college to enter some branch of the armed forces will pay one half of the semester fee of \$175. If he withdraws during the last eight weeks of any term he will pay the whole semester fee of \$175. By action of the Faculty credit is allowed during the last eight weeks in subjects in which a boy is passing at the time of withdrawal. The same financial, but not credit, arrangement will apply when in the opinion of the College Physician, the health of a student requires him to withdraw.

All candidates for degrees must deposit with the Treasurer thirty days before graduation a diploma fee of \$5; the fee is returned to those who fail to graduate.

All college fees are payable to P. TULANE ATKINSON, Treasurer.

OTHER INFORMATION

All rooms in Venable Hall have wardrobe facilities and are furnished with dressers, beds (42 in. wide), mattresses, springs, tables, and chairs. Bed coverings, pillows, towels, and the like must be furnished by the student, and the amount varies with the individual.

Laundry, per month, will cost \$2.50 or \$3. The Farmville Steam Laundry offers a flat rate of \$13.50 payable in advance for the semester.

Books will cost from \$20 to \$30 for the session.

The incidental expenses will depend upon the habits of the student and the allowance from home. There is no more fruitful source of harmful influence to a student than too large a supply of pocket money.

Scholarships*

The following scholarships are perpetually endowed:

THE H. H. HOUSTON SCHOLARSHIP gives free tuition the following year to the student making the highest average in the Freshman class.

THE GEORGE E. TUCKETT SCHOLARSHIP gives free tuition the following year to the student making the highest average in the Sophomore class.

THE JAMES H. FARISH MEMORIAL SCHOLARSHIP.

LOULA MAE POWELL COATES SCHOLARSHIP.

All scholarships are assigned for one session either by the President or by the Faculty. They may be cancelled at any time when the deportment or the work of the recipient is deemed unsatisfactory; and will not be renewed for a student who has failed on any of his work.

SAMUEL R. BOOKER STUDENT LOAN FUND. (Established by the will of Dr. William D. Booker.)

JOSEPH STEBBINS, JR., STUDENT LOAN FUND. (Established by the will of Joseph Stebbins.)

ALEXANDER SCHOLARSHIP

This scholarship is endowed by the Alexander Fund Club of Hampden-Sydney. It is established in honor of Archibald Alexander, president 1797-1806, a native of the Valley of Virginia, one of the first presidents of the College, and is made possible through annual contributions of certain alumni from the Valley and chiefly through the munificence of the late William Alexander, Esq., of New York City, an honorary member of the Alexander Fund Club. The scholarship pays a hundred dollars cash and is in addition to free tuition. It is awarded each year to a student from the Valley of Virginia, preferably a Freshman, who would not be able to attend college without this help. Application for this scholarship must be made prior to June 1 of each year for the succeeding session.

SPECIAL BEQUESTS

DABNEY MEMORIAL FUND

This is a gift of \$10,000 for endowment by Dr. Alexander Thomson, of Cincinnati, as a memorial to his father-in-law, Dr. Charles W. Dabney, and to Dr. Robert L. Dabney, his father, in recognition of their lifetime services to the cause and spirit of true education. In the donor's words: "The lives of men who unselfishly dedicate themselves to the betterment of their kind demand that those who enter the commercial life should subscribe at least of their means to the recognition of the unselfishness and sacrifice of those who deliberately cast profit aside for the good of others."

MARY S. ROYSTER FOUNDATION

This represents substantial gifts to the endowment of the College, made by Mr. F. S. Royster, husband of Mrs. Mary S. Royster, and their children—Mrs. Fannie R. Cooke, Mrs. Mary R. White, F. S. Royster, Jr., and William S. Royster—in recognition of her great influence for good on their lives, and with the wish through this gift to perpetuate this influence in the lives of young men attending Hampden-Sydney College.

BLAIR MEMORIAL FUND

The Chair of Latin at Hampden-Sydney, because of a memorial fund given by his daughter, Miss Ellen C. Blair, has been named in honor of Dr. Walter Blair, for many years head of the Department of Latin.

MARY S. GIBSON MEMORIAL

In accordance with the terms of the will of Miss Mary S. Gibson, the residue of her estate passed to Hampden-Sydney College. The sums derived from this source were, by vote of the Board of Trustees of the College, made a part of the permanent endowment funds of the institution.

In recognition of this goodness at her hands, the Board directed that this fact be recorded annually in the general catalogue of the College as a permanent memorial to this kind friend.

MORTON HALL

Through the generosity of Samuel P. Morton, Jr., of Baltimore, a recitation hall was erected in 1936, as a memorial to his ancestor, Captain John Morton, one of the founders of Hampden-Sydney College.

GYMNASIUM

Through the kindness of its interested friends and alumni, the College has been enabled to complete the first unit of a thoroughly modern, fully equipped gymnasium.

FORM OF BEQUEST
